

## KATE AND ANTON STAR IN THE BRAND-NEW NICKELODEON SHOW, *WARPED!*

The series, coming to Nick in January, takes place in a popular comic book shop, where Kate Godfrey and Anton Starkman's characters come together to create a graphic novel. They talked to us all about it!

**J-14: Hi guys! What can we expect from your characters on the show?**

**ANTON STARKMAN:** Milo is obsessed with all things comics. He also likes things done in a specific way and he's stressed out most of the time because his friends definitely do not do things his way.

**KATE GODFREY:** Ruby is a ball of energy. She is constantly coming up with silly ideas that, somehow, she convinces Milo to do. Ruby and Milo are so different that it makes this show fun to watch.

**J-14: If you made your own graphic novel like your characters do, what**

**would it be about?**

**AS:** I would write a space adventure about a hero discovering their superpowers. I would want the story to be realistic because I've always admired heroes that amaze us as well as teach real-world skills. I mean, come on, everyone thinks they might have superpowers at least once in their life!

**KG:** I always tease Anton that I would make a graphic novel called *Anton Eats* because he is a picky eater. It would center around Anton as he is forced to order something other than buttered pasta or chicken strips.

**J-14: Why do you think J-14 readers are going to love *Warped!*?**

**AS:** I think J-14 readers are going to love this show because we have fun adventures, awesome sets, some action, a little bit of chaos and a whole lot of friendship.

**KG:** I know you guys will love the show because it is action-packed and so funny. Each of the characters bring something different and unique!
